STEP 1

Submit only the white (top) copy of pledge form to United Way. (Yellow = company; Pink = donor)

Verify that each pledge form is completely filled out.

Sort employee pledge forms into categories by type of payment (payroll deduction, check, credit card, etc.).

Start with one category. **Run a calculator tape** of amount pledged on each form. Band the forms together and **attach calculator tape**. Count the pledge forms in that bundle and write the number on the tape.

Enter number of donors and amount pledged for that type of payment in the corresponding boxes in the Employee Giving table at right.

Please include **perpetual givers** from previous year (provided on UW spread-sheet) in totals for Number of Donors and Amount Pledged.

Continue same process with each category.

In table at right, enter total # employees in organization, total # of donors, and total amount of employee giving.
